

Top 50 People and 50 Places of the Bible

Top 50 Bible Places

The purpose of this document is to give a quick view of the places identified in my Bible Model. A structured process and the Strong's Concordance identified approximately 50 people and 50 places that were referred to across several books of the Bible. Like strategic people and places referred to across several functions in a business, these are strategic entities of the Bible. It is not exactly 50 or 10. These are just good ways to model the Bible. In other words, knowing these locations helps us understand the Bible. This document is another way of seeing these important places.

Places

These are the 50 places with their aliases (other names used for the same places).

Introduction to the [Reference System](#)

(This reference system link includes an overview of the 50 Locations)

- 1) [Bashan](#)
