

Christianity – Demonstrably Unique

The purpose of this document is to define the demonstrable separation of Christianity from all other religions of the world. At this time in history we have a unique view of the prophecies of the Bible. Almost all of them have become history. The Bible shows us its Prophecies are not understood until they become history. The Bible gives us prophecy into our time. So now, we are privileged to have a mostly complete view of the Bible. These prophecies and their associated history have created the demonstrable difference between Christianity (including Judaism because Jesus is a Jew) and all the other religions. Included in history with these prophecies are signs, wonders and miracles. Prophetic history supports them as fact also. The other facts (like a change of heart) happen on the inside and must be experienced, but the great thing about history is that I can with one page on History demonstrate factually Christianity's uniqueness.

Prophetic Facts

I call this document Prophetic Facts. Prophecy is easy, but Biblical Prophecy is hard. It must be perfect. History turns Biblical Prophecy into fact. History is one reason why we call the Word of God truth. History is why Christians can demonstrate there is only one truth. History is why the people who read the Bible with the Book of Genesis as their anchor, as the source of their understanding of the Bible, why they seem so sure of themselves. They see every year accounted for from Creation to now. They see thousands of prophecies proven factual by history. Throughout History, they have seen many proven factual in their own lifetime. Throughout history, the other thing that proves truth is signs, wonders and miracles.

Examples of History, Miracles, and Prophetic Facts
